Volunteer Opportunities

The Usual

Just as with your own cats, our kitties need to have fresh food and water, clean litter and lots of loving on a regular basis. Multiply that by the number of cats we have and it's a never ending task. You could stop by weekly, biweekly, monthly or whatever fits into your schedule. You could even "adopt" a haven. Spend some time with your own favorite haven of cats every time you visit!

Foster Homes

Are you at a stage in your life when you can't commit to a pet on a permanent basis? How about fostering? We can especially use your help during kitten season, typically spring to summer. Your providing a temporary home means space at the Havens to help one more cat.

Calling All Crafters & Flea Marketers

If you enjoy making crafts, we are always looking for original items to sell throughout the year for fundraising events. If you participate in craft shows, flea markets, have space at a consignment shop or own your own shop, we're always looking for places to sell handmade crafts and other items.

Errand Runners

Can you pick up donated litter or food? Possibly take a cat or dog to the vet? Transport a dog from the Iowa County pound to Safe Haven? What a help!

Are You Handy?

Seems as though there's always something that needs to be fixed, built or improved...you know the "drill." If you're a skilled carpenter, plumber, electrician, painter, flooring installer, or just handy to have around, we'd love to hear from you. Even if you don't feel like actually wielding a hammer, your how-to ideas are just as valuable.

Plant A Seed

Do you belong to a garden club in need of a project, or just like working around the yard? Safe Haven would like to create a memorial garden to honor those little souls who have brightened our lives, as well as our beloved friends who have passed on.

Like Meeting People?

Safe Haven sometimes has the opportunity to set up tables at area events. We provide information, do some fundraising, and find wonderful homes for our dogs and cats. Also, if you know of any businesses or organizations that would welcome the opportunity to learn more about Safe Haven first-hand, we would love the introduction to make a presentation, provide literature, or an on-site tour.

Other areas of need include, bakers for bake sales, envelope stuffers, computer experts, lawyers, bankers, printers—whatever talents and skills you have, they would likely be extremely useful to Safe Haven (and would earn you the undying love of even our smallest residents)!
