

**Safe Haven of Iowa  
County**

Safe Haven of Iowa County is a non-profit rescue organization whose mission is to rescue, protect, spay/neuter and find good homes for stray animals in Iowa County, Iowa. We strive to offer the best traditional veterinary care to our animals through relationships built with local veterinarians. And, whenever possible, holistic health care for sick and injured animals while in our care.

Lil Mac was dumped out of a moving vehicle with his sister at only two days old. Rescued and taken into our TLC Program he is now a 9 lb. healthy happy kitten.

**The Goal of the TLC Foster Program** is to provide an in-home environment for animals that due to their special needs, need one-on-one care.

TLC families provide care for:

- Kittens
- Puppies
- Dogs
- Cats

Some need a temporary place for a few days, while others may need several months.

Sometimes TLC homes are needed for animals simply because we don't have the space for them.

Foster support is available at any time - day or night. SHIC staff is always available to assist.

Safe Haven of Iowa County (SHIC) will provide all veterinary care it deems necessary, food, crates, cat litter etc. as needed. TLC Foster Families provide their time, homes, and lots of love and attention. Veterinary services provided without prior approval of SHIC Director is the sole financial responsibility of the TLC Foster Family.

If interested in becoming a foster family contact Rinthea at [rinthea@wesavepets.com](mailto:rinthea@wesavepets.com) or call 319-325-0150

Tucker is SHIC's official mascot. Rescued from a hoarder where he lived in horrific conditions, he was extremely under-socialized - the worse case we have ever seen. After spending months at the havens and only showing little progress, he was brought into the TLC foster program. Today he is living happily in the home of our Founder and Director as the most devoted canine companion.

## TLC Foster Care Requirements

- Foster families are required to sign a binding contract with SHIC. The contract outlines the responsibilities.
- If renting, permission from the landlord is required.
- A Waiver of Liability must be signed to exclude SHIC from being responsible for any damage done to personal property by the animal.
- TLC fosters must be at least 21 years old.
- Everyone in the home must be a willing participant.
- Home visits are done at the discretion of SHIC prior to approval.
- Foster animals need to be returned to SHIC for adoption upon request unless arrangements have been made with the Director.
